cc: Utilities Deputy Director Chris Stempa;
Kelli Rindt, Enterprise Fund Accounting Manager

Date: November 2, 2018

Subject: *Change Order #4 to August Winter and Sons in the amount of \$8,308 for the Iron Salt Rehabilitation Project resulting in the construction contract being increased from \$413,333 to \$421,641 with contingency being reduced from \$45,028 to \$36,720 and extend the Final Completion Date from 9/15/18 to 11/15/18.*

On December 6, 2017 Common Council approved a contract for the Appleton Wastewater Treatment Plant (AWWTP) Iron Salt Chemical Room Rehabilitation and Improvements Project to August Winter and Sons Inc. for in the amount of \$398,575 with a 15% contingency of \$59,786 for a project total not to exceed \$458,361.

The project is designed to restore mechanical, electrical, and structural components within the existing chemical storage room which have reached their useful life after 25 years of service. The project also incorporates improvements to the chemical feed system that will allow for precision chemical dosing necessary to consistently achieve future low-level phosphorus limits.

August Winter & Sons Inc. initiated construction activities in January 2018 and is nearing completion of the project. Change order #4 repairs a chemical liner in a containment tank, repairs tank penetrations from pre-existing pipes and completes painting that was not under contract.

If you have any questions regarding the project or change orders please contact Chris Shaw at 832-5945.
