Vered,

I know you to be an understanding and compassionate person. I hope you will do your utmost to save as many trees as possible on the court. I know one of my two trees will be removed, but if we can adjust city plans and save as many as possible, like we did when they were going to remove 13 trees on Tonka Street, that would be wonderful. At that time we convinced them to only remove 3 trees. We argued from several stand points, i.e. the real estate value of homes with mature trees, the esthetic value of the area that brings many dog walkers and hikers to the neighborhood, and the environmental benefit of mature trees. We are willing to have a narrow street with parking only on one side, and a one way street if necessary if that will enable us to preserve more trees. Thank you for working for the wishes of the neighbors. We appreciate anything you can do.

Sincerely,

Mary Gerlach
