RE: EECGB Grant

Good Afternoon,

Per my interpretation regarding the allowable use for the EECGB grant we can supplement the library budget, specifically the design for renewable energy sources and the electrification of the facility to eliminate the dependency on natural gas.

Overall, we meet the requirements to utilize this funding for the library project as it relates to design and engineering. Davis-Bacon requirements keep us from utilizing it on construction contracts as the project was not bid with DB requirements. DB requirements are used when the project is being funded with federal funding.

Please feel free to contact me at 832-5572 with any questions, or by email at dean.gazza@appleton.org.
