

MEMORANDUM

TO: City of Appleton

FROM: Brian Kappen, Project Manager

DATE: August 3, 2016

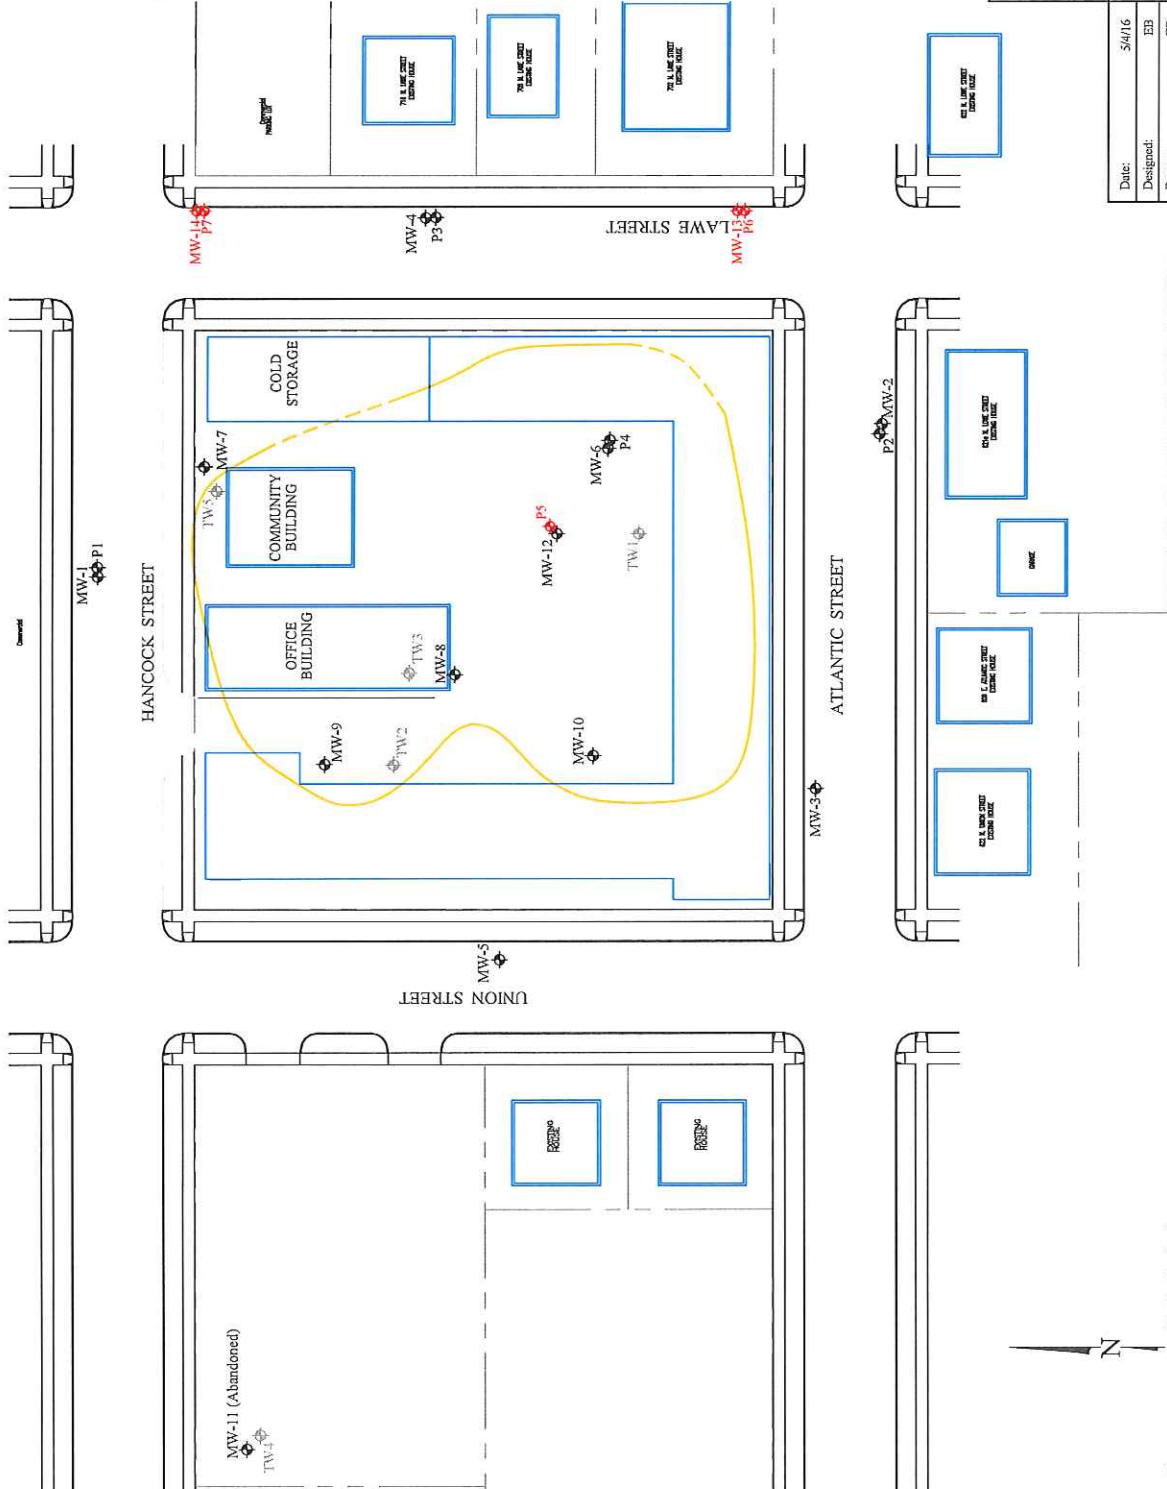

SUBJECT: Groundwater Monitoring Well Installation in the Lawe Street Right-of-Way  
Former Appleton Wire Works

---

In accordance with Wisconsin Department of Natural Resources (WDNR) rules and regulations, EnviroForensics is investigating the extent of chlorinated solvent impacts in shallow groundwater at the former Appleton Wire Works property located at 601 E. Hancock Street (Site). The proposed monitoring wells in Lawe Street are needed to define impacts to the northeast and southeast of the Site. The WDNR has approved the design and location of the proposed wells.

**Legend**

- Property boundary
- Monitoring well location
- Piezometer location
- Proposed monitoring well location
- Approximate extent of VOC impacts above Enforcement Standard (Dashed where inferred)
- Channelizing Device
