This proposal is for professional services for E. South River Street Retaining Wall (Project). This proposal is subject to GRAEF's Standard Terms and Conditions, which were attached to our original proposal.

It is our understanding that the nature of the Project is the reconstruction of the existing 1911 retaining wall (approximately 575 feet), the replacement of the sub-standard railing (approximately 750 feet), and replacement of the sidewalk along E. South River Street. The plans, specification, and quantities will be inserted into the City's Unit A-14 paving project.

For this Project, GRAEF proposes to provide the following additional Basic Services:

- Revise wall plans and details to accept the revised railing.

GRAEF will endeavor to perform the proposed additional Basic Services per the following schedule:

- Revise drawings to meet bid schedule for project.

For this Project, it is our understanding Client will provide the following additional services, items and/or information:

- Revised base plans with widened retaining wall.

For all additional Basic Services, Client agrees to compensate GRAEF as follows **Lump Sum Fee = \$1,200.**

To accept this proposal for additional Basic Services, please sign and date both enclosed copies and return one to us. Upon receipt of an executed copy, GRAEF will commence work on the additional Basic Services for the Project.
