You should discuss the information contained herein with any and all internal or external advisors and experts you deem appropriate before acting on the information. Baird seeks to serve as an underwriter (or placement agent) on a future transaction and not as a financial advisor or municipal advisor. IMPORTANT DISCLOSURES

Robert W. Baird & Co. Incorporated ("Baird") is not recommending that you take or not take any action. Baird is not acting as financial advisor or municipal advisor to you and does not owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934 to you with respect to the information contained herein and/or accompanying materials (collectively, the "Materials"). Baird is acting for its own interests. You should discuss the Materials with any and all internal or external advisors and experts that you deem appropriate before acting on the Materials.

Baird seeks to serve as underwriter in connection with a possible issuance of municipal securities you may be considering and not as financial advisor or municipal advisor. Baird is providing the Materials for discussion purposes only, in anticipation of being engaged to serve as underwriter (or placement agent).

The role of an underwriter includes the following: Municipal Securities Rulemaking Board Rule G-17 requires an underwriter to deal fairly at all times with both municipal issuers and investors. An underwriter's primary role is to purchase the proposed securities to be issued with a view to distribution in an arm's length commercial transaction with the issuer. An underwriter has financial and other interests that differ from those of the issuer. An underwriter may provide advice to the issuer concerning the structure, timing, terms, and other similar matters for an issuance of municipal securities. Any such advice, however, would be provided in the context of serving as an underwriter and not as municipal advisor, financial advisor or fiduciary. Unlike a municipal advisor, an underwriter does not have a fiduciary duty to the issuer under the federal securities laws and is therefore not required by federal law to act in the best interests of the issuer without regard to its own financial or other interests. An underwriter has a duty to purchase securities from the issuer at a fair and reasonable price but must balance that duty with its duty to sell those securities to investors at prices that are fair and reasonable. An underwriter will review the official statement (if any) applicable to the proposed issuance in accordance with, and as part of, its responsibilities to investors under the federal securities laws, as applied to the facts and circumstances of the proposed issuance.

The Materials do not include any proposals, recommendations or suggestions that you take or refrain from taking any action with regard to an issuance of municipal securities and are not intended to be and should not be construed as "advice" within the meaning of Section 15B of the Securities Exchange Act of 1934 or Rule 15Ba1-1 thereunder. The Materials are intended to provide information of a factual, objective or educational nature, as well as general information about Baird (including its Public Finance unit) and its experience, qualifications and capabilities.

Any information or estimates contained in the Materials are based on publicly available data, including information about recent transactions believed to be comparable, and Baird's experience, and are subject to change without notice. Baird has not independently verified the accuracy of such data. Interested parties are advised to contact Baird for more information.

If you have any questions or concerns about the above disclosures, please contact Baird Public Finance.

IRS Circular 230 Disclosure: To ensure compliance with requirements imposed by the IRS, we inform you that the Materials do not constitute tax advice and shall not be used for the purpose of (i) avoiding tax penalties or (ii) promoting, marketing or recommending to another party any transaction or matter addressed herein.
