Month of May – Garden Art:

2020 brought many challenges to our ability to host events and bring people downtown safely. To do so, we embraced the open air and walkability of our downtown, by offering our Downtown Creates series as a walk event only, connecting people and offering a place of artistic expression. With your support, we would like to showcase an exploration of art displays for the community to engage and connect. We often hear how the last twelve months have impacted the mental health of our community. Providing experiences of connection, even with strangers; is valuable and important to our overall well-being.

As you review this application, we look forward to any suggestions or comments from the Public Art Committee, in an effort to make this event the success that we hope it to be.

• Brief description of the proposed artwork

Our May Downtown Creates event will feature “Garden Art” showcasing talents from the community. The “Adopt a Planter” concept will engage families, non-profits and local artists of all ages to create artful displays in the 72 planters on College Avenue. They will be encouraged to incorporate natural materials and inspiration into garden themed works of art.

Community participants will be engaged through a call for artists, Master Gardeners, Marigold Mile, Appleton Area School District, nonprofits, and family groups. Corporate sponsorships will also be made available.

• Photos/sketches of proposed work:

See potential art creation images on attached page. Displays could feature Fairy Gardens, Garden Art, Flowers, Painted Rocks, etc. Each applicant will need to submit a “proposed” thought/sketch for approval, prior to receiving proposed planter location.

• Site plan/location map showing location of proposed work –

College Avenue – Amenity Strip & Beautification Planters. Working closely with DPW, the Garden Art creations will be showcased prior to any planting done in the planters for the Spring/Summer season. A letter of request to occupy the public right of way to Paula VandeHey, Director of Public Works is attached.

A final placement map of art planter locations can be submitted to the committee, once all applicants have applied and sketch/proposed work is approved.

• Reason for choosing the proposed location:

Areas will be spaced well apart to promote social distancing, within the full mile stretch of College Avenue. Offering distance between displays and features will assist with keeping the flow of foot traffic moving throughout the downtown district. Additionally, we would like this to be a full weekend offering, thus eliminating barriers of access to the arts. Free masks and hand sanitizer will be made available to attendees.

• **Description of how the work is installed/anchored/attached**

Displays will be mostly free standing objects and some staked items for stability with placement directly into the dirt of the beautification planters.
