Subject: FW: Appleton YMCA Sidewalk Closure

Paula,

Can you place this item (Permanent Street Occupancy Permit) on the next MSC Agenda?

Do you need anything else from Boldt?

Thanks.

Ross

Subject: Appleton YMCA Sidewalk Closure

Good Morning Ross-

Per our phone conversation yesterday: Boldt is in the process of constructing a new entrance for the Appleton YMCA. The majority of the work outside includes new footings, steel erection, masonry, glass curtain wall and roofing. This will require that I shut down the sidewalk on the east side of Morrison street for an extended period. I stopped by yesterday and picked up the permit for the first 35 days, which will take care of April. I will need to have it also closed for May, June and July. Our construction fence was shown on our Life Safety Plan sent to Dan Meissner, late February and the side walk closure was approved by Mike Hardy on 3/21.

Please let me know when the additional months are approved and the appropriate fee due to Appleton.

Thank you.

Steve
