RE: Permanent Occupancy of Right of Way

Dear Paula

The Fox Cities Building for the Arts would like to light the exterior of their building. In order to do this a flag and lighting bracket will need to be mounted to the College Avenue side of the building. The proposed bracket will extend 6' into the street right of way over the sidewalk. The bottom of the bracket would be 10' above the sidewalk. I have enclosed a photo and image of the bracket. We would also need temporary pedestrian control during installation for a few days in July that we would schedule with you. A plan for the temporary pedestrian control is also enclosed.

Thank you for your consideration.

Sincerely

A handwritten signature in black ink that reads "Douglas A Haas".
