Here is a link to the Outagamie County recycling and solid waste disposal tool. This has a search feature that tells the customer where to place an item and what time to have their cart out. For example, if you type in "pizza box", it tells you to put a greasy box in the garbage but to recycle a clean box and also tells Appleton residents what time to put out their cart. This is really cool and we should encourage residents to use it.

I will contact the sales guy to get info about possible implementation for our website but I think for now we just utilize the County site. Please share this with appropriate staff.

Nate

Subject: ReCollect | Appleton

Hi Nathan,

Pardon my intrusion to your inbox but one of our customers in Outagamie County, Christine Miller, suggested we reach out to you. ReCollect specializes in digital communications tools for solid waste and recycling organizations and I'm curious if we might be a fit for Appleton. Here's some local examples of our work:

Outagamie County: [Web](#), [Apple App](#), [Android App](#)
City of Fitchburg: [Web](#)
City of Beloit: [Web](#), [Apple App](#), [Android App](#)

Does this look of interest? I'd be happy to chat anytime that suits you, if so!

Cheers,

--
