COVID-19 Addendum

"The pricing on this quotation has been calculated based on current material, equipment, and transportation rates. Due to the ongoing volatility of local and global markets, we reserve the right to revise our pricing as needed based on market fluctuations and availability, throughout the duration of the Project and will be reconciled at Project completion. The ongoing supply chain challenges and global impacts such as inflationary pressure and interruptions in globally integrated supply chains have had a tremendous impact on industries across the world - the construction industry has certainly not been exempt. Although FTI remains hopeful conditions will fully stabilize in the near future, uncertainty still remains.

With that in mind, as a basis to proceed, notwithstanding anything to the contrary contained in our contract agreement, both parties understand and agree any project delays, suspensions or terminations, whether foreseeable or not, which occur on the project and are not due to the fault or negligence on our part, shall allow us compensation for our demobilization and remobilization costs, along with payment for work performed up to the date of the delay, to include our committed costs we can't cancel, and other costs incurred due to the suspension or termination, and to include overhead and profit. Any delays over a consecutive 30-day period, given the uncertainty of a restart, FTI will require payment of any retainage withheld to date.

FTI will do everything possible to mitigate extra costs, but want to make certain we are able to recover costs incurred for our efforts expended on any project.

Warranty: Faith Technologies will provide warranty support for our installation and craftsmanship for a period of one year. Any work performed outside of the previously defined scope options will be performed on a time and materials basis.

Initial acceptance of desired options below, sign and return.
