Comments/Questions: I am opposed to the grace period for shoveling during the holidays. I believe 36 hours is more than some communities give and is adequate time for citizens of Appleton. By increasing the time to 3 days sidewalks will become snow packed with foot traffic and make it worse for the homeowner to shovel and the citizens of Appleton that use the sidewalks. Homeowners only need to have the sidewalk cleared and this can be done by a neighbor, friend, family member living in the area, or contracted out. Many people go on vacations in January and February as well. Should they be given an additional grace period? I believe this change invites headaches. Of the sidewalks cleared by the City, were many of them during the holiday season?

Thanks for listening to my two cents worth.
