

Premises Description

The event will be hosted outdoors in the designated parking lot area at Lawrence University. The parking lot will serve as the defined and controlled space for all party activities, including the service and consumption of alcohol.

All alcoholic beverages will be strictly confined to the boundaries of the parking lot. Clear signage will be placed at all exit points indicating that no alcohol may be taken beyond the designated area, helping to ensure that consumption remains contained within the permitted space.

To support safe and orderly management of the event, Lawrence University campus security will be hired to monitor the perimeter of the parking lot throughout the duration of the party. Security personnel will help ensure compliance with event boundaries, and support enforcement of the alcohol containment guidelines.

Temporary amendment reason

This is a member's only kick off party to our fundraiser and opening of the TAG exhibit at the end of August, behind the museum featuring live music by the Tom Thiel Trio, interactive art experiences, and opportunities for guests to meet visiting artists. Food service will be provided by a food truck, and a live vehicle art demonstration will take place, with the completed vehicle later becoming part of an exhibit. The atmosphere will be designed as a block party that launches the evening's programming and encourages guest engagement throughout the event.
