Bold entries have snow removed from the street but have not been previously assessed.

Non-bold entries have snow removed from the street and have been previously assessed.

Strikethrough entries have snow removed from the street as a priority 2 (Class Removal 'B') and should no longer be assessed.

The following are the charges for street snow removal:

80 cents per lineal foot with the following exceptions.

50 cents per lineal foot for alleys.

10 cents per lineal foot on N. Clark Street from railroad tracks to Roosevelt Street.

- B.** All other streets are removed based on need and staff availability. **The priority 2 & 3 snow removal lists are on file at the Municipal Services Building.**
- C.** Snow Plowing and Removal from any City Parking Lot shall be charged to Parking Meter Account based upon actual cost.
- D.** All telephone complaints regarding sidewalk snow shoveling or ice conditions on sidewalks shall be referred to the Department of Public Works. No complaint will be accepted unless the caller gives his/her name and address. The Department will research the assessor's records to locate the property owner or occupant and attempt to advise them of the City Ordinance regarding neglected walks. If the complaint comes from an alderman or mayor's office, the complaint shall be considered to be legitimate and no phone call will be required.

Any complaint of un-shoveled sidewalks, other than commercially zoned property, received five (5) days after the cessation of a snowfall will not require an attempt to notify the owner/occupant regarding the neglected walk.

Once the corrective action has been taken, the Department of Public Works shall within 10 days notify the property owner in writing of the work that was done.

In event there are subsequent complaints received concerning the same sidewalk, no further calls or notification of the work that was done shall be required.

In event the complaint is against a commercially zoned property, no phone call shall be required.

- E. Where snow is removed at the election of the City, no charge shall be made for property zoned and used residentially.
