

Appleton Health Department

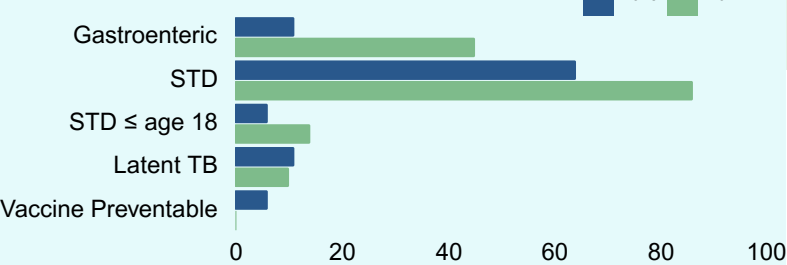

2025 Q1 Report

There are five Foundational Areas in Public Health, also known as Public Health Programs. The Appleton Health Department reports quarterly on quantitative metrics in each program. The data reported here is compared to the data for the same period the previous year.

Communicable Disease Control

Vaccine-preventable communicable diseases increased compared to 2024, primarily due to a rise in pertussis cases.

Communicable Disease Prevalence

Chronic Disease Control & Injury Prevention

Lead Elevations

2025: 13 Lead Elevations

2024: 14 Lead Elevations

Community Health

- Housing & Collaboration:** Staff participated in extensive housing coalition work, case conferencing, and interagency collaboration, with roles ranging from leadership to training and outreach.
- Community Engagement & Education:** Team members led or attended over 30 training sessions, events, and meetings focused on homelessness, public health, diversity, and leadership.
- Systems Support & Client Services:** Continued efforts in coordinated entry, client navigation, report preparation, and regional data collection (e.g., PIT count, CE intakes) to support community health infrastructure.

Maternal, Child, & Family Health

Public Health Nurse visits and revisits

2025: 68 visits

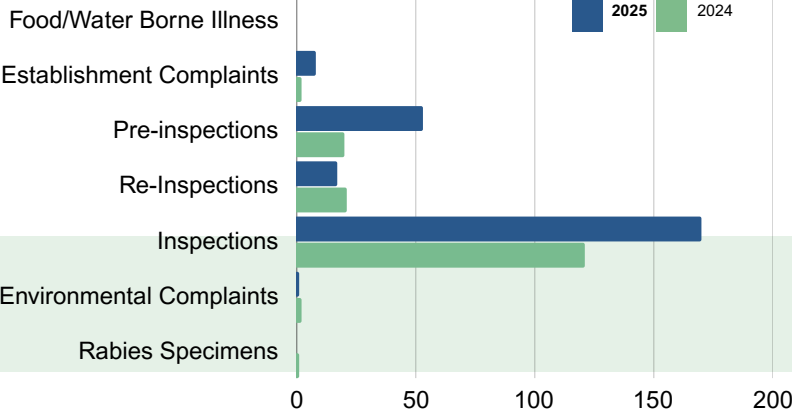

2024: 64 visits

Environmental Public Health

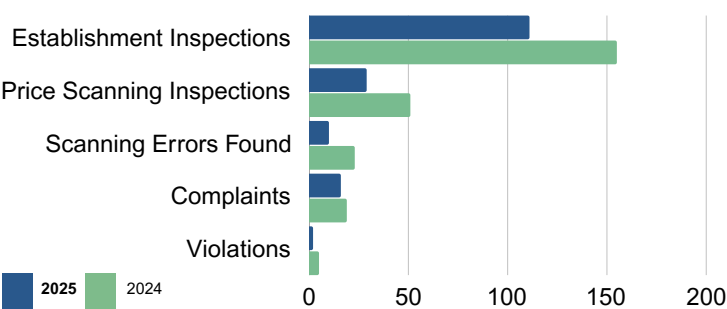

The implementation and upkeep of a Tourist Rooming House licensing compliance process resulted in corresponding increases in both Pre-inspections and Inspections.

Licensing

Weights & Measures

Establishment Inspections, Price Scanning Inspections, Complaints, & Violations

Emergency Preparedness & Response

- Participated in multiple **exercises and workshops**, including the Saputo Tabletop Exercise, Outagamie County Emergency Operations Center Exercise and the H5N1 Joint Information Center Preparedness Workshop.
- Presented at the Governor's Conference** on the integration of Public Health Emergency Preparedness (PHEP) responsibilities with Emergency Management duties.
- Ongoing development and refinement of various operational and contingency plans.
