1. MINUTES OF THE MUNICIPAL SERVICES COMMITTEE

[15-1843](#)

Approve design for the 2018 S. Oneida Street (Skyline Bridge to Valley Road) Concrete Reconstruction Project as follows:

- From Valley Road to Murray Street: reconstruct roadway with concrete pavement to a width of 68' from back of curb to back of curb which would accommodate 2 thru lanes in each direction, a center two way left turn lane, and bike lanes in each direction. In addition, a 6' wide sidewalk would be constructed tight to the back of curb. This cross section would require approximately 2' of right of way acquisition from each side.
- From Murray Street to Calumet Street: continue the same proposed cross section as stated above including bike lanes, except the two way left turn lane would be a raised concrete median with a left turn lane on to Calumet Street and a left turn lane on to Murray Street. This is similar to the existing cross section. Right of way acquisition in this section would vary from 0 to 2' on the east side and 3' to 6' on the west side.
- From Calumet Street to Ramlen Court: continue similar cross section as previous section including bike lanes, with a raised concrete median and allowing a left turn lane on to Calumet Street. Right of way acquisition in this section would vary from 4' to 7' on the east side and 2' to 12' on the west side.
- From Ramlen Court to Foster Street: construct two lanes in each direction with bike lanes in each direction. Construct a left turn lane on to Ramlen Court.
- From Foster Street to McKinley Street: construct the same cross section as stated in the Valley Road to Murray Street section including bike lanes. The proposed two way left turn lane would transition into a left turn lane at Fremont Street and at Seymour Street. Construct a raised concrete median approximately 300' north of Seymour Street to prevent left turns out of the hospital parking lot. Right of way acquisition in this section would vary from 0' to 11' on the east side and 2' to 16' on the west side.
- From McKinley Street to Skyline Bridge: continue the two thru lanes in each direction and bike lanes in each direction. Construct a raised concrete median with a left turn lane on to Olde Oneida Street and a left turn lane into the Riverview Gardens driveway. Right of way acquisition in this section would vary from 1' to 13' on the west side only.
- Olde Oneida Street from Oneida Street to E. South River Street: reconstruct the roadway with concrete pavement to accommodate one

thru lane in each direction, bike lanes in each direction and a right turn lane on to Oneida Street. Construct a 6' wide sidewalk tight to the back of curb on both sides. A cul-de-sac would be constructed on Orange Street to eliminate the intersection of Orange Street with Olde Oneida Street. Construct indented parking along the south side of Olde Oneida Street between Orange Street and Lincoln Street. All other on-street parking would be removed from Olde Oneida Street.

- Calumet Street from 650' west of Oneida Street to Jefferson Street: reconstruct the roadway with concrete pavement to accommodate two thru lanes in each direction, bike lanes in each direction, left turn lanes on to Oneida Street and a right turn lane from eastbound Calumet Street on to southbound Oneida Street. Construct a 6' wide sidewalk tight to the back of curb on both sides. Right of way acquisition in this section would vary from 0' to 12' on the north side and 0' to 5' on the south side.

- Marigold Mile: The proposed plan includes a 1' strip between the back of curb and the sidewalk for planting the marigolds along Oneida Street from Calumet Street to McKinley Street.

During the Establish Order of the Day, Alderperson Coenen referred back the following portion of this item to the Municipal Services Committee:

Calumet Street from 650' west of Oneida Street to Jefferson Street: reconstruct the roadway with concrete pavement to accommodate two thru lanes in each direction, bike lanes in each direction, left turn lanes on to Oneida Street and a right turn lane from eastbound Calumet Street on to southbound Oneida Street. Construct a 6' wide sidewalk tight to the back of curb on both sides. Right of way acquisition in this section would vary from 0' to 12' on the north side and 0' to 5' on the south side.

This portion of Item 15-1843 will appear on an upcoming Municipal Services Committee Agenda under a separate file id.

Q. LICENSE APPLICATIONS AND COMMUNICATIONS REFERRED TO COMMITTEES OF JURISDICTION

R. RESOLUTIONS SUBMITTED BY ALDERPERSONS REFERRED TO
COMMITTEES OF JURISDICTION

BOARD OF HEALTH

#14-R-15/Aldersperson Meltzer

WHEREAS our wild animal ordinance does not allow snakes over 3 feet to be owned in the city of Appleton,

And whereas most snakes commonly owned as pets and sold in the city of Appleton grow to approximately 2 – 3 feet if they are males and approximately 3 – 6 feet if they are females, while this city ordinance restricting snake length is not commonly known or communicated to snake buyers,

And whereas all pets are members of the family whether they are furry like cats and dogs, or scaled like snakes or lizards, while individuals whose snakes have grown too large experience heartache and horror at the prospect of the city requiring them to remove the pet from their household, and many individuals have responded to finding themselves in such a situation by moving to other cities without such restrictive ordinances,

BE IT RESOLVED that in order to better meet the needs of Appleton residents and promote Appleton as a great place for families to live, that the ordinance defining the maximum length of a snake kept in the city of Appleton be changed from 3 feet to 6 feet.

SAFETY AND LICENSING COMMITTEE

#15-R-15/Lobner

WHEREAS school bus drivers are tasked with the critically important challenge of keeping children safe during their trips to and from school.

AND WHEREAS that requirement includes the period of time where students are loading and unloading from buses.

AND WHEREAS State Statute 349.21 authorizes municipalities to "provide for the use of flashing red or amber warning lights by school bus operators in a residence or business district when pupils or other authorized passengers are to be loaded or unloaded at a location at which there are no traffic signals and such persons must cross the street or highway before being loaded or after being unloaded."

AND WHEREAS said provision is a prudent step to encourage safe driving near buses.

THEREFORE BE IT RESOLVED that the City of Appleton shall enact an ordinance in accordance with the above-listed statute allowing the use of flashing lights.

SAFETY AND LICENSING COMMITTEE

#16-R-15/Lobner

WHEREAS secondhand dealers allow our residents access to necessities, clothing, entertainment and more that they might not be able to find or afford elsewhere.

AND WHEREAS the City of Appleton currently requires secondhand dealers to hold

purchased items for a minimum of 21 days before allowing them to be resold.

AND WHEREAS Wisconsin State Statute 134.71 allows municipalities to reduce that holding period to seven days if daily reports of purchased items are submitted electronically.

AND WHEREAS municipalities both within the Fox Valley and around the state have reduced their waiting period to seven days, putting current and prospective secondhand businesses in the City of Appleton at a potential competitive disadvantage.

THEREFORE BE IT RESOLVED that the City of Appleton shall adopt electronic reporting of secondhand purchases and reduce the holding period to seven days, pursuant to State Statute 134.71.
