

Service to the Town of Greenville

Due to recent discussions between Valley Transit and the Town of Greenville, a route with service to the Town of Greenville, including the Outagamie County Airport and area industrial parks was designed and tested in the transit model. The Greenville route, as well as the runtime, was provided by Valley Transit officials. The runtime for the Greenville route was 30 minutes. A headway of 35 minutes was assumed for the AM, mid-day and PM time periods.
