Re: Recommended award of the *Unit P-14* Pavement Marking Maintenance Contract (Epoxy)
Longitudinal Epoxy Pavement Markings

Quotes were opened for the *Unit P-14* Pavement Marking Maintenance Contract on June 23, 2014, as a means of establishing unit prices for this annual maintenance contract, which generally involves the installation/replacement of durable epoxy-type longitudinal pavement markings throughout the City.

While three quotes were solicited, only two quotes were received. Brickline, Inc., of Madison, Wisconsin, submitted the low quote in the total amount of \$84,565.45, which is substantially lower than our estimated cost of ~\$121,000. Brickline, Inc. has worked with the City on this annual contract in past years with excellent results.

Based on this, we recommend award of the contract to Brickline, Inc., in the amount of \$84,565.45, plus a \$15,000 contingency. The contingency allows us to leverage the unusually low unit prices (by completing additional work) and to complete unforeseen projects that arise over the course of the construction season.

This dollar amount is based on available budgeted funds for pavement marking maintenance (17022), as well as pavement markings which will be completed for other City paving projects (17014, etc.).
