

# The AYC Has a Parking Problem

## PETITION

OFFICE OF CITY CLERK  
**FILED**  
NOV 5 2018  
APPLETON, WISCONSIN

The undersigned requests that parking on the trail side of Lutz Drive be reinstated. The residents of the City of Appleton want their parking back. Here are our points:

**Safety** – It will be more dangerous for our members, the elderly, children, boaters, and residents wishing to use Lutz Park to cross the street to use any of the facilities along the river. Our members and guests are being asked to park on the far side of the street, which is not only a safety issue, but significantly inconvenient.

**Safety** – Members with boats on the east side of the club have small children or grandchildren. Crossing the street, particularly toward the east end of Lutz where the traffic rounds the sharp curve under the railroad trestles. The traffic on Lutz Drive often moves faster than the posted limits.

**AYC Business** – The Lutz trail project and the required re-configuration of the AYC Parking Lot has already taken a number of parking slots from the business. To make our members and guests park on the far side of Lutz trail is very inconvenient and harmful to the business. Many of our potential customers will choose not to come down simply because there is inadequate parking.

**Lack of Transparency** – The current No Parking on Lutz was never discussed with the AYC Management or Board. In fact, the AYC originally requested that parking hours be expanded to overnight for our boating members.

**Poor Solution for City Residents** – If parking is not allowed on the trail side of Lutz, overflow parking is likely to end up in the Lutz Park lot, which is already quite small. This is not in the residents of Appleton's best interest.

The only counterargument is the notion that the City does not want car doors opening next to the trail, particularly for bikers. This argument is not valid. Until completed, the trail is unlikely to be used for ANY biking. It does not currently go anywhere. Bikers will use the street. Plus, the trail is sufficiently wide that bikers are unlikely to have a problem with parked cars.

# The AYC Has a Parking Problem

## PETITION

The undersigned requests that parking on the trail side of Lutz Drive be reinstated. The residents of the City of Appleton want their parking back. Here are our points:

**Safety** - It will be more dangerous for our members, the elderly, children, boaters, and residents wishing to use Lutz Park to cross the street to use any of the facilities along the river. Our members and guests are being asked to park on the far side of the street, which is not only more dangerous, but significantly inconvenient.

**Safety** - Members with boats on the east side of the club have small children or grandchildren. Crossing the street, particularly on the east end of Lutz where the traffic rounds the sharp curve under the railroad trestle, is very dangerous. Plus, the traffic on Lutz Drive often moves at a high rate of speed.

**Safety** - To make sure we do not understate the importance of this, the AYC has many, many elderly members and guests. To ask them to walk across Lutz Drive to gain access to either the club or the park is unsafe. The same goes for the kids.

**AYC Business** - The Lutz trail project and the required re-configuration of the AYC Parking Lot has already taken a number of parking slots from the business. To make our members and guests park on the far side of Lutz trail is not only more dangerous, but very inconvenient and harmful to the business.

**Lack of Transparency** - The current No Parking on Lutz was never discussed with the AYC Management or Board. In fact, the AYC originally requested that parking hours be expanded to overnight for our boating members.

**Poor Solution for City Residents** - If parking is not allowed on the trail side of Lutz, overflow parking is likely to end up in the Lutz Park lot, which is already quite small. This is not in the residents of Appleton's best interest.
