Re: East Central Weights and Measures Consortium

The City of Neenah reached out in early May 2021 about the possibility of in the East Central Weights and Measures consortium. A survey was conducted, and it was determined that Neenah would require 35 days per year. The City of Neenah would like a start date of 1/1/2022. The 2022 daily rate is going to be \$446 per day. There will not be any additional staff needed.
