**Subject:** RE: Parking discounts

Hi Kimberly,

Administratively I cannot give any free parking, so options include...

1. Students parking in a free area several blocks from downtown and walking
2. Students taking Valley Transit
3. Students car-pooling and sharing the cost to park (\$2 per entry in the Yellow Ramp)
4. School paying for the student's parking
5. Going to the Municipal Services Committee and Common Council to request free, or reduced, parking

The next Municipal Services Committee meeting is next Tuesday at 5:30. If you would like to be on the agenda, I will need to know by this Wednesday at noon.

Paula

**Importance:** High

Hi Paula,

I am not sure if you remember but we had chatted earlier in the summer in regards to parking costs for students who attend Valley New School in the City Center Mall. Who can I talk to about discounted parking or free parking options for the minimal students we have that drive (Maybe 15 total for the year)?

No other schools have to pay for parking and have space for the students, anything we can look out would be great!

Thanks,

Kimberly Reoh
