

Outagamie County Landfill/Recycling Operations 2017 Projected Rates

As the Outagamie County Recycling and Solid Waste Department finalizes work on the 2017 operations budget the following rates and adjustments are recommended.

1. The Non-Municipal Solid Waste tip fee for 2017 is anticipating an adjustment of \$2/ton from \$35/ton to \$37/ton.
2. All aggregate products which include concrete, brick, base, and asphalt delivered to the landfill is projecting an adjustment from \$15/ton to \$5/ton. The operation is considering crushing concrete products and should sufficient quantities arrive, the crushed recycled base material may be offered back out to the community at affordable rates in the future.
3. The Municipal Solid Waste fee of \$45/ton for all 32 municipalities in Outagamie County will not change for 2017. This rate includes the \$12 recycling collection fee that is applied towards the costs associated with the curbside single stream recycling collection program.

No other rates and/or adjustments are being considered at this time. To get the latest on all of our rates, recycling, disposal, and educational information please visit our website @ recyclemoreoutagamie.org

Sincerely,

Brian Van Straten
