**DATE:** August 1, 2022

**RE:** Sanitary Sewer Easement and Agreement

Earlier this year an intergovernmental agreement was entered for the installation of a sanitary sewer extending from the existing City sewer in Zuelke Drive, eastward beneath Wisconsin 441 and eventually extending to serve the new County northwest landfill. The County is the lead agency on that project and I have been working with Corporation Counsel on terms of a permanent sanitary sewer easement through a portion of property owned by the Chris J. Hartwig Revocable Trust.

While most of the easement terms are standard, one of the points negotiated with the Trust was an agreement that neither the City nor the County would take the land by eminent domain or condemnation for a period of 25 years from the date of this agreement. Earlier this year, and prior to agreeing to this term in concept, I spoke with former Public Works Director Vandehey about this specific term and any concerns. In short, she advised that there were no concerns with this time period. It was explained that the long-term stormwater plan filed with the DNR shows a potential future stormwater pond on the property but would not require construction prior to 2049 (in other words after this condition has expired). Based on this timing, City staff is comfortable with the terms and conditions in the easement. These terms have been approved by the County Board as well as representatives of the Trust.

Accordingly, I respectfully recommend **APPROVAL** of the Permanent Sanitary Sewer Easement and Temporary Construction Easement Agreement with the Chris J. Hartwig Revocable Trust as owner of the subject property.
