

**RESOLUTIONS SUBMITTED BY ALDERPERSONS
BOARD OF HEALTH**

#7-R-15 – Dalton/Meltzer

“Whereas animal husbandry has been a part of domestic life for centuries,
Whereas, animal husbandry provides ecological services for a community’s environment,
And Whereas, raising animals provides learning opportunities for people of all ages,
Therefore, Be it Resolved, the Appleton Health Department be directed to study, make
recommendations to, and draft ordinance language which results in areas zoned Public Institution
(PI) and Urban Farm being permitted to keep and raise a limited number of chickens.”
