Final Concept Approval:

X

Qty: _____

Date: ____/____/____

By signing the final production proof, you are approving the quote and terms set forth. You are accepting to pay for the final product (prop, wrap, painting, etc.) provided it resembles the approved concept renderings within reason. It is up to the customer to determine whether the LG rendering is a valid representation of your desired output. 3D and Backlit Props are warranted for 3 years from the time of installation against structural failures and graphic vinyl fading resulting from intended use and application. Paint grade applications are warranted for 1 year from the time of installation. Damage due to improper installation, improper storage, vandalism, or acts of God are not covered.

If PMS colors are not specified on the electronic file, color settings from the original electronic artwork will be reproduced by our prepress department and are reflected in the design.
