		COWS		
		DEPT. OF NATURAL RESOURCES 1000 FRIENDS OF WISCONSIN OF WISCONSIN COUNTIES COUNTIES ASSOCIATION		
		This Sustainability Strategies Scoresheet is provided for member communities to track sustainability management strategies in		
		transportation, energy, land use, water, waste, and health. This scoresheet is intended to be dynamic and flexible. In the spirit of		
		continuous improvement toward superior environmental performance, suggested revisions to this scoresheet are always encouraged.		
		TRANSPORTATION DEMAND MANAGEMENT:		
		Transportation demand management strategies aim to reduce GHG emissions and VMT by influencing change in individual behavior.		
		These strategies encourage walking, bicycling, and transit as modes of transportation within a community and seek to curb the number and length of trips by vehicle.		
		Bicycle and Pedestrian Programs/Projects		
-	2	Require bike parking for all new non-residential and multifamily uses.	2	2
┢─	1	Set standards for placement and number (as function of intensity of use) for bike parking spaces.	1	1
┢─	3	Commuter bike routes identified and cleared.	3	3
	10	League of American Bicyclists certification. (Bronze 5, Silver 7, Platinum 10)	5	7
	3	Funded and operating SRTS program (or functional equivalent) covering at least 10 percent of students.	3	3
	1	Conduct annual survey of students' mode of transport to school.	1	1
		Employer-Based Programs		
	5	Require large employers seeking rezoning to set a price signal (cash-out or charge).	0	0
	5	Require large employers seeking rezoning to provide subsidized transit.	0	0
	5	Require large employers seeking rezoning to provide a TDM plan that would reduce trips by 20 percent over business as usual.	0	0
		<u>Traffic Volume</u>		
	3	Track VMT or traffic counts and report on efforts at reduction (including those on this list).	2	2
	3	Eliminate parking minimums from non-residential districts.	0	0
	5	Set parking maximums at X per square feet for office and retail uses.	0	0
	5	Scheduled transit service at basic level (hour peak service within half-mile of 50 percent of addresses).	4	4
	10	Scheduled transit service at enhanced level (half-hour peak service within 75 percent of addresses).	3	3
		TRANSPORTATION SYSTEM MANAGEMENT		
		Transportation system management strategies aim to reduce GHG emissions and VMT by improving the overall performance of a transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system.		
	3	transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system. Preservation and Improvement	3	3
	3 5	transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system.	3 2	3
		transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system. Preservation and Improvement Develop and fully fund comprehensive maintenance program for existing roads.	_	-
	5 5	transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system. Preservation and Improvement Develop and fully fund comprehensive maintenance program for existing roads. Charge impact fees for new roads.	2	3
	5	transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system. Preservation and Improvement Develop and fully fund comprehensive maintenance program for existing roads. Charge impact fees for new roads. Calculate lane-miles per capita for arterials and collectors, and show reductions Prepare a plan identifying disconnections in bike and pedestrian networks, prioritizing fixes and identifying potential funding sources for the most important projects.	2	3
	5 5	transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system. Preservation and Improvement Develop and fully fund comprehensive maintenance program for existing roads. Charge impact fees for new roads. 	Max. Score	GREEN TIER Sustainability Strategies Scoresheet (Also known as Appendix 3 of GTLC Charter, Last Revised 12-14-2017 by Dean Gazza)	Community Name 2016 Scores*	Community Name 2017 Scores*
	5	Zoning for office and retail districts permits floor-area ratio > 1, on average.	3	3
	8	Zoning for office and retail districts requires floor-area ratio > 1, on average.	0	0
	5	Zoning code includes mixed use districts	5	5
	8	Mixed-use language from Smart Code TBA.	5	5
J		NATURAL RESOURCE MANAGEMENT Natural resource management strategies seek to conserve, preserve, protect and promote a community's greenspace, wildlife, wetlands and waterways for this and future generations by promoting pervious surfaces and adequate setbacks.		
;		<u>Canopy</u>		
	3	Adopt tree preservation ordinance per GTLC standards.	3	3
	4	Set a tree canopy goal and develop a management plan to achieve it	3	3
	2	Require trees to be planted in all new developments	2	2
	2 2	Certification as Tree City USA Certification as Bird City Wisconsin Community	0	2
	2		0	2
		<u>Vegetation Management</u>		
	2	Public properties and rights of way mown or cleared only for safe sightlines and/or to remove invasive species.	2	2
	2	Create community policy and BMP guidelines on minimizing chemical use during vegetation management of public and private properties	0	0
		<u>Water Protection</u>		
	10	Establish 75-foot natural vegetation zone by surface water.	10	10
	5	Inventory wetlands and ensure no net annual loss.	5	5
		<u>COMMUNITY ENERGY USE</u> Community energy use strategies encourage energy efficiency and the use of renewable fuels to reduce total energy consumption throughout the community		
		<u>Community Energy Use Policies</u>		
	6	Use PACE financing	0	0
	1	Watt meters available to the public	0	0
	10	Adopt Residential Energy Conservation Ordinance (time-of-sale certification and upgrades).	0	0
		<u>Measuring Community Energy Use</u>		
	4	Work with local utilities to calculate total electricity and natural gas consumption annually, beginning with the fifth year before entering the program.	4	4
	1	State of Wisconsin Energy Independent (EI) Community designation.	1	l
-		<u>MUNICIPAL ENERGY USE</u> Municipal energy use strategies encourage municipal employees to conserve energy, preserve the environment, and decrease		
-		greenhouse gas emissions from municipal facilities, services, and vehicle fleets.

Sustainability Strategies Scoresheet

Elen	Max.	(Also known as Appendix 3 of GTLC Charter, Last Revised 12-14-2017 by Dean Gazza)	Community Name 2016 Scores*	Communit Name 2013 Scores*
	2	Install waterless urinals in men's restrooms at municipal facilities (city hall, parks, etc.)	0	0
	3	All outdoor watering by local government, excluding parks and golf courses, from rain collection.	3	3
l	4	Develop a water efficiency and conservation plan for municipal buildings WATER AND WASTEWATER INFRASTRUCTURE MANAGEMENT	4	4
[Setting goals for the sustainable management of water and wastewater infrastructure reduces costs; saves energy; and ensures the protection of public health and the environment.		
\sim	10	Develop and implement asset management plans that set targets for the sustainable maintenance, operation and renewal of water and wastewater infrastructure.	10	10
A	5	Wastewater biogas captured and used in operations.	5	5
т		Financial assistance for sewer lateral replacements.	1	1
- -	5	Set goals for increasing the recovery of resources from wastewater for energy generation (heat or electricity) and fertilizer.	4	4
	2	Explore partnership options with high-strength waste.	1	1
R	6	Upgrade water and wastewater utility equipment (e.g., variable frequency drive motors) to achieve energy efficiency based on total life cycle, triple bottom line costs (e.g. maintenance and replacement strategies in asset management plans).	6	6
-		Stormwater Management		
ſ		Stormwater Management strategy options encourage the use of best management practices to achieve a reduction in the amount of harmful pollutants introduced to our streams, rivers, and lakes.		
	3	Develop a regular street sweeping program to reduce total suspended solids	3	3
	3	Stormwater utility fees offer credits for best management practices such as rain barrels, rain gardens, and pervious paving	3	3
	2	Inventory all paved surfaces (e.g., by GIS mapping), and develop a plan for reduction Work with commercial or light industrial businesses to develop stormwater pollution plans	2	2
l	Z	WATER AND DEVELOPMENT		2
		Water and Development strategy options link water conservation and the preservation of land, wetlands, and wildlife habitat while promoting compact development, restoration and rehabilitation efforts, and long-term planning.		
		Land Development		
	5	Identify key green infrastructure areas during plan development and/or implement a plan to acquire and protect key green infrastructure areas	5	5
		<u>Waters, Wetlands, and Wildlife</u>		
	6	Replace concrete channels with re-meandered and naturalized creeks, wetlands, or swales	6	6
	3	Develop a system for identifying culverts that obstruct fish migration and install fish friendly culverts where needed	3	3
	4	Provide incentives for protection of green infrastructure, sensitive areas, important wildlife habitat, or for the restoration or rehabilitation of wetlands or other degraded habitats such as credit towards open space or set-aside requirements	4	4
r		<u>WASTE MANAGEMENT AND REDUCTION</u> Waste Management and Reduction strategy options encourage municipalities and their citizens to divert organics and recyclables from landfills and properly dispose of hazardous materials in an effort to reduce waste in a community.		
	3	Community waste stream monitored at least annually . Waste reduction plan prepared and updated annually	3	3
	4	Waste and materials management plan based on "zero-waste" principles, with specific goals, prepared and updated annually	4	4
N	3	Construction/deconstruction waste recycling ordinance	3	3
^	3	Mandatory residential curbside recycling pickup that covers paper, metal cans, glass and plastic bottles	3	3
S	5	Develop a municipal collection program that encourages the diversion of food discards, yard materials, and other organics from landfills to composting or anaerobic digestion with energy recovery	5	5
тΙ	3	Develop and promote programs that dispose of household hazardous, medical, and electronic waste	3	3
E	4	Use anaerobic digesters to process organic waste and produce energy Implement municipal ordinances requiring manufacturer takeback for fluorescent bulbs, thermostats and other mercury-containing	4	4
	2	devices Ordinances in place to reduce the usage of phone books as well as single-use shopping bags, styrofoam food containers and other	1	1
		disposable packaging	2	2
	2 1	Pay-as-you-throw system implemented by municipality or required of private waste haulers Use public education and outreach to promote recycling, backyard composting, product re-use and waste reduction	2 1	2 1
		HEALTHY COMMUNITY PLANNING Policies and projects related to incorporating health living into community design- whether by built form, programs, education, etc. in an effort to reduce trends in poor nutrition, inactive lifestyles, chronic diseases, such as obesity and heart disease, and other negative health risk factors.	The catego were adde	
		Policies Affecting Multiple Program Areas		
	5	Adopt a resolution that promotes Health in All Policies at the community level (e.g., HEAL Resolution). Include that educational campaigns supporting a program covered by the resolution are appropriately targeted to all of the populations addressed by the		
		program	0	5
	8	Establish a Health Impact Assessments policy, including when an assessment is required and its scope	0	0
		<u>Planning</u> Add health policies in 1 or more of the community's plans, including the comprehensive plan, long-range transportation plan,		
	8	bicycle/pedestrian plan and open spaces recreation plan (embedded or stand-alone chapter) or develop a comprehensive,		
		community wide wellness plan.	5	8
	3	Site schools in the Comprehensive Plan for accessibility with existing or new bicycle and pedestrian infrastructure	3	3
	5	Encourage the formation and/or support of Neighborhood Improvement Districts (NIDs), Neighborhood Development Corporations, or other similar types of neighborhood reinvestment and enhancement strategies in plans or policies.	5	5
