Subject: June 14th Noise variance

Paula,

We will be looking to perform an epoxy overlay on the Skyline Bridge starting June 14th -June 30th Monday-Thurs. I did add a few extra days in the schedule as this work is very weather dependent. We would like to begin at 5:30am each morning due to the longer daylight but we will plan on being done each day at 8:00pm. If we are not able to get the variance this will most likely add 3-4days to the process which will also increase the cost. Let me know if you have any questions. Thanks, Jim.

Jim McDowell
