CITY OF APPLETON 2022 BUDGET RISK MANAGEMENT Human Resources Director: Jay M. Ratchman Deputy Director of Human Resources: Kim M. Kamp

MISSION STATEMENT

To maximize the City's overall mission by eliminating, reducing or minimizing risk exposures through the use of innovative risk control, claims management, risk financing, regulatory compliance and a variety of programs designed to provide a safe and healthy workplace and community.

DISCUSSION OF SIGNIFICANT 2021 EVENTS

The Risk Management staff continued to manage organizational liability through a variety of efforts. Some of the highlights in 2021 include:

- *Continued to log safety data sheets and audit the system.
- *Completed our annual training requirements including the respirator medical surveillance program and respirator fit testing for all employees who are required to wear respirators. Annual hearing tests were completed on-site in the fall to ensure compliance with the hearing conservation program.
- *Continued to use the Tyler Munis software to track work injuries and streamlined entry process for this information being sent to third-party administrator.
- *As of June 1, 2021, reviewed around 30 special events to assure adequate risk transfer to the event sponsor.
- *As of June 1, 2021, reviewed around 100 City service and construction contracts to ensure adequate risk transfer to the applicable contractor/vendor.
- *Reviewed and suggested changes to the following policies: AED (Automated External Defibrillator), Ergonomics, Hearing Conservation, Restricted Duty and Right to Know (Hazard Communication).
- *Completed safety audits at the water treatment plant
- *Completed fume hood inspections at the Police Department.
- *Pursued subrogation and restitution for damage to City property caused by third parties. As of June 1, 2021, \$42,884 has been recovered for losses that occurred in 2020 and 2021.
- *Shared information with the applicable departments on several on-line defensive driving courses offered for free by the City's excess worker's compensation carrier.
- *Risk Manager served multiple roles in the City's Emergency Operations Center during the COVID-19 pandemic and facilitated the work group which developed return to work guidance for City personnel. The Risk Manager also participated in multiple City department assessments to develop protective strategies for employees returning back to work from the pandemic.
- *Utilized data from risk information management system and various loss runs to identify loss-trend issues for various departments. This loss history information was reviewed with the applicable departments and also included a number of suggested loss prevention and loss reduction strategies.
- *Analyzed 2022 projected property premiums at various deductible levels to assist in determining the most tolerable economic decision.
- *Created worker's compensation benchmarking reports for the Public Works, Police, and Fire Departments. These reports provided a comparison of work comp losses between similar departments but with different municipalities. This information was reviewed with each applicable Department Director and Deputy Director.
- *Assisted in the creation of the new City risk management intranet site.
- *Assisted the Facilities Management Department with coordination of infrared scanning (free from CVMIC) of major electrical systems at AWWTP. This infrared scanning is a property risk loss control measure intended to identify any potential electrical problems that may result in fires.
- *Assisted the Police Department with utilization of CVMIC's free law enforcement policy review program which is intended to supplement the policy review/revision previously completed by Lexipol.
- *Completed safety program/training audits for the following city departments: Public Works, Utilities, Fire, Police, and Facilities Management. Suggestions/strategies were provided for any identified gaps.
- *Assisted Fire and Police Dept. with implementation of a number of items related to our hearing conservation program.
- *Completed request for proposals (RFP) for worker's compensation third party administrator.
- *Completed internal audit of City's excess work comp program. With the audit findings, we anticipate our recovery amount to be over \$150,000 from our excess work comp insurance carrier.
- *Worked on one large insurance claim resulting in over \$185,000 payment from applicable insurance carrier.
- *Provided information to actuary to complete actuarial report on the City's risk management program. Results of this actuarial report were shared with various City leadership staff.
- *Coordinated with CVMIC loss control representative on the following items: various playground inspections, confined space training (classroom and hands-on), worksite safety visits and battery switch audit.

MAJOR 2022 OBJECTIVES

Our key objective is to ensure that the City has sufficient insurance coverage and reserves for any type of claim, and to handle all claims and potential claims involving the City. Therefore, our focus will be on the development of new policies and revisions of existing policies consistent with this objective. In terms of insurance coverage and claims handling, we will:

Investigate and resolve all claims filed against the City.

Work with the Attorney's Office or outside counsel on workers' compensation claims and other unresolved claims.

Review all property, liability and workers' compensation insurance coverages.

Evaluate funding source adequacy, including charges for service for workers' compensation, property and liability coverages.

Conduct an audit of our insurance fund to make sure adequate funding is available for potential litigation claims.

Continue to review certificate of insurance requirements to make sure risk of liability is reduced through contractual risk transfer in case of any claims against the City.

Work with insurance provider on a frequent basis to assess City buildings to make sure the value of our property is adequately covered for insurance purposes.

Continue to provide all applicable staff training in the safety/loss prevention areas via in person or on-line instruction.

Monitor OSHA 300 log entries (listing of work related injuries and illnesses) and send mandatory reports to the State.

Analyze property and casualty loss data and work with departments to develop appropriate courses of action to mitigate these losses.

Work with vendors such as CVMIC, or complete internally, to make sure all safety related education is available to our employees.

Continue to stay aware of changing safety regulations to ensure the City is in compliance.

Continue to work with the Attorney's Office and applicable departments to review construction and service contracts to ensure proper risk transfer to the applicable contractor/vendor.

Property & Liability Management

Business Unit 6210

PROGRAM MISSION

For the financial benefit of our citizens, we will proactively administer and manage a fiscally responsible risk management program.

PROGRAM NARRATIVE

Link to City Goals:

Implements Key Strategy #1:"Responsibly deliver excellent services", #2:"Encourage active community participation and involvement", and #4:"Continually assess trends affecting the community and proactively respond."

Objectives:

Review all lines of insurance coverage for alternatives and cost reduction

Analyze statistical data and develop programs to reduce exposures

Proactively train and educate employees regarding risk management and loss control measures

Review discounting opportunities for workers' compensation claims

Review City contracts for adequate insurance requirements and proof of insurance

Thoroughly review and process all property/casualty losses to reduce the City's total cost of risk

Review special events for potential liability exposures, insurance requirements and proof of insurance (if required)

Major changes in Revenue, Expenditures, or Programs:

Our property package premiums and liability insurance premiums are increasing in 2022 largely due to the following: a) Both property and liability premiums are being impacted by the volatility in the secondary or re-insurance markets created by larger-than-expected global catastrophic property losses that have occurred in the past 5 years, and b) The City incurred 4 large property losses during 2019 and 2020 (yellow ramp elevator fire and July, 2019 storm related damage at multiple locations, tank overfilled at AWWTP causing damage to elevator and truck with elevated dump truck box struck entrance to MSB building). It is anticipated that these insurance rates will continue to rise beyond 2022 due to the continued volatility in the re-insurance market, the unknown effects of the COVID-19 pandemic and the recent protests (resulting in significant property damage nationwide). Additionally, both excess worker's compensation insurance premiums and self insured retention limits will also be increasing due to the recently passed PTSD (post traumatic stress disorder) WI legislation for public safety employees.

An actuarial study performed to review our property, liability and workers compensation program revealed that our workers compensation loss experience has developed very poorly since our last review in 2018. This trend is primarily due to unfavorable increases in both payments and reserve requirements on a number of older claims. As a result, our funding reserves are not expected to be adequate to cover future anticipated future expenses related to these claims. For this reason, along with a general projected increase in claim cost trends, it is necessary to increase the budget for workers compensation expenses in 2022.

Safety/Loss Prevention

Business Unit 6220

PROGRAM MISSION

For the benefit of City employees, we will identify, educate and promote loss prevention programs in order to provide a safe and healthy work environment.

PROGRAM NARRATIVE

Link to City Goals:

Implements Key Strategy #1: "Responsibly deliver excellent services", #3: "Recognize and grow everyone's talents."

Objectives:

Facilitate new employee orientation and new supervisor orientation classes.

Continue to conduct or facilitate required safety training for employees and authorized volunteers.

Continue to conduct or facilitate other loss control training such as, but not limited to, harassment, discrimination, drug-free workplace for all employees and authorized volunteers.

Attend departmental safety committee meetings.

Facilitate central safety committee meetings and executive safety committee meetings.

Respond to and document ergonomic concerns and implement solutions.

Conduct annual hearing tests on required personnel, and annual lead testing.

Review and develop programs to promote safety, reduce injuries and reduce claims.

Conduct annual respirator fit testing and obtain proper medical clearance for employee respirator usage.

Provide comprehensive safety training to help educate supervisors and employees in identifying and stopping potential hazards in the workplace such as by offering OSHA 10 hour and OSHA 30 hour training courses.

Continue to conduct safety audits of City buildings to identify safety hazards.

Continue to review all injury/accident reports and worker's compensation/liability loss runs to identify potential loss control measures to prevent accident/injury re-occurrence.

Major changes in Revenue, Expenditures, or Programs:

No major changes
