File #: 23-1396, **Version:** 1

Approve the roadway design parameters: **Perkins Street**, from Prospect Avenue to the RR Tracks (1,480 ft), be reconstructed with concrete pavement and curb and gutter. The details of the proposed Perkins Street reconstruction project are as follows:

- New concrete pavement constructed to a width of 31' from back of curb to back of curb, which is 9' narrower than the existing street (40') within this portion of the project.
- New 5' concrete sidewalk, where none currently exists, within the project limits.
- Curb extensions (narrowing of the pavement) at Charles St to serve as traffic calming.
- Existing on-street parking would be restricted along the east side of Perkins St, within the project limits.
