

CITY OF APPLETON

Date: June 22, 2026

To: Members of Safety and Licensing Committee

From: Mayor Jacob A. Woodford

Subject: Flock Service Termination and Final Recommendation

The City of Appleton (City) has notified Flock Group, Inc (Flock) of its intention to end use of its products effective June 30, 2026.

The City has requested verification that Flock's cameras are disabled on or before June 30, 2026 and remain disabled until removed not later than July 31, 2026. Should Flock be unable or unwilling to provide such verification, the City may consider physically obstructing the cameras by means of bags over the equipment.

Common Council approval is not required to terminate use of this service, which has already been initiated. Pursuant to service being terminated as of June 30, 2026, Council affirmation that no further payments be issued after June 30, 2026 is requested.

The Mayor, in consultation with Legal and Administrative Services, requests APPROVAL of the recommendation to issue no further payments to Flock Group, Inc pursuant to the now-terminated service.
