- The decision to place the mural on the east-facing concrete wall between the lower garage and upper parking deck of the police department was deliberate and strategic. Recognizing the importance of community outreach, the location was chosen as an opportunity to transform dead space into a vibrant and meaningful asset for the neighborhood. By utilizing this otherwise underutilized area, the mural serves as an opportunity for positive engagement. This project embodies the department's commitment to proactive initiatives that foster connection and enhance the community landscape.
- Since this mural will be painted directly onto the existing structure, there is no need for additional securing measures. The artwork will seamlessly integrate into the surface, becoming a permanent fixture.
- With a relatively short predicted timeline, this mural project is set to be completed over the course of three days. The collaborative effort begins with two days dedicated to involvement from Appleton Area School District students, who will contribute to the creation process under the guidance of the artist. On the final day, the artist will conduct any necessary touch-ups to ensure the mural's completion and polish the final product.
- Thanks to the use of high-quality materials and a durable top coating, this mural project is designed to be low maintenance. With proper care and attention to detail during the installation process, the need for ongoing maintenance is minimized.
