February 20, 2026

Keith Ristow
Bob's / Mac's Towing
1818 N. Locust Street
Appleton, WI 54914

Effective immediately on February 20, 2026, Bob's (Mac's) Towing is removed from the City of Appleton next-up tow list. This removal is based on violations of Appleton Code, to include:

Availability: 9-750(b) A towing company must provide rotating call list services 24 hours a day, seven (7) days a week, including on legal holidays.

In fall of 2025 you were made aware of a number of declined tows. A review of tow opportunities accepted between 01/01/26 and the morning of 02/19/26 showed continuation of that violation, with approximately just over half of the opportunities accepted. This is significantly less than others on the list and unacceptable.

Professional Conduct 9-750(f)(3) Towing company employees who are engaged in any activity described in this Article must: Conduct themselves in a professional manner

During 2025 you were warned regarding the unprofessional conduct of your driver, Tyler Romenesko, which occurred during dialogs he had with Outagamie County Dispatch. You were notified of the severity of this concern and consequences of continued behaviors.

Tyler's unprofessional demeanor with county dispatch has continued, with the most recent incident being on 02/20/2025, resulting in a complaint.

These violations of Appleton Code impact the efficiency of the emergency communications center and safety of the public.

The appeal process for this removal is as follows:

Sec. 9-752(d) A towing company may request a reconsideration of a decision made pursuant to this Article by putting the reason for the request in writing and submitting it to the Chief of Police. The Chief of Police or designee shall review

the request and issue a written decision on the request within seven (7) business days. A towing company may appeal the decision of the Chief of Police or designee within ten (10) business days by placing the reason for the appeal in writing and delivering the appeal to the City Clerk. The appeal will be heard and decided by the Common Council by way of the Safety and Licensing Committee.

Sincerely,

Sgt. Chris Biese 9144

Hi Kati,

Could you please provide the incident number for the 441 tow and the time from Bob's dispatch to arrival please?

Thanks,

Chris

Subject: Bob's towing

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

We continue to experience ongoing issues with Bob's Towing.

This morning, we contacted them as the next-up tow for the County, and they declined (as they typically do). Shortly afterward, we contacted them as the next-up tow for the City, and they accepted. During the City call, Tim advised the driver the location was US 441 SB, north of Calumet. Tyler (the driver) called back and yelled at Tim, stating Tim had said 441 SB, south of Calumet. The related call recordings are attached for reference.

Given the ongoing nature of these issues, if we are unable to remove Bob's Towing from the rotation list, can we suspend them? These problems have been occurring for quite some time. Dispatchers are increasingly reluctant to contact Bob's because it is very likely they will decline (which delays service and wastes time), or the driver will respond in an unprofessional manner. Thanks,

Kati Stahmann

TOW VIOLATION – BOB’S TOWING, SPEEDING, PROFESSIONAL CONDUCT, UNTRAINED STAFF

04/14/23

A23017830

2300 BLOCK N LINWOOD

Under A23017830, Appleton PD officers were dispatched for a weapon call with shots fired. During the course of this investigation, a vehicle was identified as being evidentiary in value. The vehicle was listed in the report as a 2008 Cadillac CTS. Bob’s Towing was contacted for the evidentiary impound tow as they held the contract for our 2023 primary contract tow company. Following this incident, I received the following email from Ofc. D. Anderson:

Hello,

I wanted to advise you of an incident that caught my eye today. Bob's Towing was called out to impound the vehicle from this incident. The first tow driver arrived and ran into issues where he did not know how to use his vehicle (as he did not use it often and he was not a regular driver) to properly remove the car. A second driver, Hunter Gustavus, came and picked up the vehicle. When Hunter arrived, he was visibly upset/agitated and was not very professional when he removed the vehicle. He hopped into the original driver's vehicle quickly, hooked the vehicle, and removed it without much care and with clear impatience. When I was following him to APD to impound, he was driving at LEAST 10mph over the speed limit and at some points, even faster. After Hunter dropped the vehicle, he (without prompting) apologized to me for his behavior. He mentioned that the other driver was not used to the vehicle he was using and did not have the full knowledge of it, and him trying to explain on the phone to the other driver how to tow the vehicle was frustrating, so he drove from somewhere further away to take care of it.

While Hunter's apology was appreciated, this caused significant concern with the company we contract with for impound. Hunter's behavior was so visible from everyone on scene, and I am sure it did not help with the already tense situation we were working on (with uncooperative individuals).

Just figured it would be worth mentioning. FYI- I did not address the speeding situation with the driver, as I figured it may be addressed better administratively however you saw fit.

I copied Lt. Krieg as he was present during this incident and during the tow.

*Officer Derek Anderson
Police Officer/Northern District/Badge # 9105
Appleton Police Department
222 South Walnut Street
Appleton, WI 54911*

(920)832-5500

Derek.Anderson@appleton.org

On 04/19/23 I spoke with Ofc. Anderson further about this. In addition to the email he provided, Ofc. Anderson indicated they were dealing with a difficult situation with subjects that were not cooperative. When Bob's Towing arrived, it was obvious the driver was having difficulties. The tow truck was a standard conventional truck. The vehicle needing to be towed was in a lawn, but nothing further about the tow was unusual. The driver was unable to lift the vehicle and told Ofc. Anderson this was not his usual truck and there was a problem with one of the cylinders. The driver ended up on the phone with another Bob's employee, identified as Hunter L. Gustavus 07/22/99.

Hunter arrived in a flatbed tow truck. Hunter was immediately recognized as upset. He motioned for the other driver to leave. Hunter was slamming things around and was visibly upset during the tow process. Ofc. Anderson advised the family was watching from their window. Ofc. Anderson described Hunter's conduct as being noticeable and disruptive, but not meeting the threshold of criminal in nature.

Hunter did not appear to have any difficulties hooking the car up, leaving Ofc. Anderson to question if he was provided accurate information about the cylinder not working. The tow was standard, other than the car being on a lawn. The tow only involved lifting the front of the car with the wheel lifts. No extraordinary measures were needed.

Ofc. Anderson reported that with the first driver's inability to complete the tow, and then the delayed arrival of Hunter, the tow process was delayed an estimated 20 minutes.

When Hunter left with the car, he drove EB on Wisconsin Ave. and SB on Richmond St. The destination for the tow was the APD. As this was an evidentiary tow, Ofc. Anderson followed. Ofc. Anderson reported Hunter was speeding this entire stretch of road estimated at 10-15mph above the posted speed limit, which was 30mph. Hunter was in a turn lane and then he had a green light he did not proceed. He then entered the intersection and the light cycled to red, leaving him in the intersection on red light. Ofc. Anderson activated his emergency lights so they could get through.

At the APD Hunter apologized. Ofc. Anderson did not address the speeding at that time.

The 2023 contract with Bob's Towing as the primary contract tow service for the APD contains the following language:

Towing Service. The Contractor shall provide towing service at the direction of the APD. The types of vehicles that may be towed include disabled police vehicles (fleet vehicles from the APD and ten [10] select squads from the Outagamie County Sheriff's Department), lawfully seized vehicles, and lawfully seized and abandoned property other than vehicles too large for removal. The towing service shall be to one of the following locations: (i) the APD, located at 222 South Walnut Street, Appleton, WI 54911, (ii) the Yellow Ramp (lower level), located at 130 East Washington Street, Appleton, WI 54911, or (iii) the City of Appleton Municipal Services Building, located at the 2600 block of East Glendale Avenue, Appleton, WI 54911. The Contractor shall provide twenty-four (24) hour towing service at the request of the APD. Upon receiving the request to tow a vehicle pursuant to this contract, the Contractor shall respond within 25 minutes or less. Absent exceptional

circumstance, the response must be with the proper equipment to accomplish the towing required.

7. Tow Service Operators. All of the Contractor's service operators shall be licensed, trained and conduct themselves in a professional manner at all times. The Contractor's service operators shall use the proper equipment to accomplish the necessary tow service and all tow services shall be carried out in the most efficient manner possible for the particular tow.

The issues observed in this situation included the following:

- Delayed response time due to the need for an additional operator to respond.
- The first driver was apparently untrained in using the equipment.
- Professional conduct.
- Towing in the most efficient way possible.
- Speeding in violation of Wisconsin State Statutes.

On 04/28/23 I had a phone conversation with Keith Ristow, the owner of Bob's Towing. I explained the concerns to Keith. Keith told me the first driver, named Justin, was having issues with the part of the truck that swings behind the wheels of the towed car so it can be lifted up. The equipment was bent down several inches causing the swinging arms to dig into the grass. When this equipment was used on pavement it didn't cause any issues since it would slide across the hard surface. When on grass, it dug in. The driver called Hunter, who had more experience, and the issue was corrected.

I explained the further issues with Hunter's demeanor and speeding. Keith did not dispute this and said he trusted the officer's assessment of speeding. Keith went on to say he has his trucks GPS'd and gets alerts with they exceed 5mph over the limit. Keith said he was not going to question the officer's assessment and was not going to check the historical data on the GPS.

On 05/01/23 I made phone contact with Hunter. I explained my concerns with his demeanor, as well as the speeding violations. Hunter explained he got the call from the driver regarding something being broken on his truck, and Hunter said he was on top of the Outagamie County Landfill and had to go back and get a different truck. Hunter said he usually keeps his speed within 5mph of the limit. I explained that especially with this being an impound tow, that meant they were contracting with the APD, and his demeanor and speeding reflected on our department. I also explained that he was towing a vehicle which was evidence in a major case investigation. I issued him a warning for speeding.

END OF REPORT

SGT. OSTERMEIER #9209

10/19/25

TOW VIOLATION – BOB'S TOWING, CONDUCT

LOCATION – 1818 N LOCUST ST

On 05/26/25 Bob's Towing was contacted for a next-up tow to remove a vehicle that was parked on the Memorial Day Parade route. Following this, county dispatch contacted an APD supervisor to address an issue with the Bob's call taker, later identified as Tyler Romenesko 11/28/88. Tyler contacted county dispatch to complain about an APD CSO not being present when he arrived to tow the car. Tyler sounded demanding in telling dispatch he had an issue with a CSO not being present. He said four CSO's were sitting down the street. Dispatch told Tyler they would pass his concerns on to an APD supervisor, but he persisted. He said they put drivers in positions to tow vehicles but then send the officers away. Dispatch said they didn't send the officer away. Tyler was talking over and interrupting the dispatcher. The dispatch pointed out to Tyler that he was getting animated, which he denied, and again kept talking over the dispatcher. Tyler was argumentative during the dialog and kept talking over the dispatcher. At the end of the call Tyler disconnected the line. This phone call was 1 minute 51 seconds. I obtained a copy of the call audio and sent it to Keith Ristow with a request he call me.

I noted the reference to four CSO's sitting down the street seemed unlikely. I had driven through the area at the time Tyler was on-scene towing the car. I was overseeing the special event and was aware that CSO's had various duties they were performing. I saw several CSO's performing their duties, but not four of them together.

On 07/20/25 I was again contacted by dispatch with another call audio involving Tyler. Although this call was for a county next up tow in Grand Chute, Tyler referenced a recent Appleton next up tow. Tyler again had a confrontational tone and referenced a recent Appleton next up call. Tyler expressed frustration and concern that the driver would not be able to pay for the tow, like the Appleton next up call he referenced. He stated the Appleton driver was unable to pay and they had to push the car into a parking lot. The dispatcher told Tyler they were on county dispatch and were not dispatching for Appleton. Tyler continued venting about drivers not getting paid when the police call and it puts them in a difficult situation. This call lasted 4 minutes 12 seconds with dispatch.

I later watched the Axon footage from CSO Runyan on the Appleton call. The video did not capture the entire incident, so I spoke with CSO Runyan. He recalled he was on a disabled vehicle in traffic call. He spoke with the driver and called next-up. The driver advised they could pay for the tow. When Bob's arrived, the driver just pushed the car into a parking lot and didn't charge. The driver told CSO Runyan that he was a fill in driver, and he did not want Bob's to be put back on top of the call rotation, as we typically would do if there was a no-tow.

I again sent this audio to Keith Ristow and then spoke with him. The overall issue Tyler was bringing up was questioning if the vehicle owner had the ability to pay for tow.

Keith sounded understanding and very supportive of the difficult job dispatch had. Keith said Tyler was a good employee but described him as not very good dealing with people. Keith assured me he would address it with Tyler and he did not believe it would be an issue again.

On 10/19/25 I was again contacted by a county dispatch supervisor, who sent me another audio of an Appleton next up call involving Tyler. This call involved a request from a vehicle owner to have their disabled car towed back to their residence. Tyler questioned if the driver could pay for the tow. Tyler then pointed out that "you guys" getting the keys for the vehicle makes his job more difficult. The dispatcher told him she did not get that information and the driver was with the car. Tyler was confrontational and presented a demeaning tone to the dispatcher. This call lasted two minutes and 50 seconds.

On 10/24/25 I emailed Keith a copy of the 10/19/25 audio and requested to speak about it. On 10/27/25 I called Keith. He was again understanding and very supportive of the job dispatch had. He advised Tyler was told he needed to be completely nice and brief with dispatch, and additional questions could be addressed after he arrived at the tow location, since dispatch only had limited information. Since this was an ongoing issue, I told Keith he would be issued a written warning for unprofessional conduct.

During each of these three calls referenced, Tyler extended the amount of time dispatch was on the phone with him. His demeanor was negative and confrontational, to the point dispatch forwarded their concerns to me. Copies of each of these audios are included in the electronic file. Also included are email dialogs between me and Keith Ristow.

10/27/25

Keith Ristow,

During 2025 we spoke on the phone and emailed several times regarding the unprofessional conduct of your driver, Tyler Romenesko, which occurred during dialogs he had with Outagamie County Dispatch. I truly appreciate you're understanding and support for the difficult work our dispatchers do. I appreciate your willingness to hear the concerns and address them with your driver.

Unfortunately, Tyler's unprofessional demeanor with county dispatch has continued, with the most recent incident being on 10/19/25.

As a result of this review, it was determined that Bob's Towing was in violation of the City of Appleton Tow Ordinance. Section 9-750 (f)(3) states that towing company employees who are engaged in any activity described in this article must "Conduct themselves in a professional manner".

This notice serves as a written warning. Be aware, Section 9-752(c) states "A towing company receiving two (2) written warnings in a calendar year shall be immediately removed from the rotating call list"

To avoid any future violations, please review the Tow Ordinance and ensure all Bob's Towing staff members are familiar with all aspects of it.

SGT John Ostermeier 9209

Sorry,

I thought we had gotten back on this. I did talk to my driver, and I made him understand that cause we made out on the road we're not called being made by Dispatch and that he needed to be extremely nice to Dispatch because the fact that their job is very hard. I told him the next time he has an issue he needs to come to me, and I can put it in writing and possibly a solution to you instead of venting to a dispatcher or a CSO or an officer. I do not believe I will have this problem again with him, but I do know he has frustrated because of the fact that when we get called to a car for parking on College Avenue, the CSO is tend to go away and we have no coverage in case somebody comes and tries to take the car. Call me when you have a minute and we can discuss further.

John,

Yes, we already spoke about it. I did address it with the Driver and I stated to him that this cannot happen again if it happens again, then I need to change things so he has no contact with Dispatch. I'm hoping that it is getting better because I have been watching the GPS and the phone logs and it seems like it is getting better but you will be the judge of that. Again, I apologize on behalf of my employee and I hope that me addressing it with him several times helps. When I say dressing it several times I mean, I continually talk through it with him so it does not continue.

On Aug 7, 2025, at 9:54 AM, John Ostermeier <John.Ostermeier@appletonwi.gov> wrote:

Keith,

Here is another audio. This was from 7/25 from before we spoke. This tied up dispatch for over 5 minutes and the dispatch supervisor sent it to me to address as it referenced an Appleton tow. The dispatchers exact words were "I THINK THAT I HANDLED IT IN THE NICEST WAY THAT I COULD... BUT PERSONALLY, THE WAY IT SEEMED LIKE IT WAS SUCH AN INCONVIENCE TO HIM, AND THE WAY HE SCOFFED, AND COMPLAINED TO ME ABOUT DOING HIS JOB WITH APD WAS PERSONALLY I THINK UNPROFESSIONAL."

This was regarding a county next up. The tow he referenced in the call was an Appleton next up for a disabled car in traffic. I watched the bodycam footage from that Appleton tow and there were no issues at all. Instead of towing the car, your driver pushed the car into a lot and declined to be put back on top the list even when the CSO offered to put him back on top. The driver said he was a fill in, and was very helpful and professional during the APD call.

No need to call me back as we already spoke about this issue and this call was before we spoke.

Thanks,
John

John,

I will be speaking to Tyler about this tomorrow. I sent him the recording and I need to make sure he is very clear that the only thing he does is say yes and no and thank you. I know the role of dispatcher and I know that they do not have information that he is asking for. Also, they do not have time to gather the information. He needs to respond to the scene and assess the situation and make appropriate decisions while on scene. I will make sure this gets done. I apologize and no, I do not agree that my people should talk this way. Please apologize to the dispatcher and let her know that I am trying to correct this situation with Tyler. Unfortunately, Tyler came from some pretty bad situations with other towing companies that allowed this because the owners would also talk to dispatchers this way. I have nothing but respect for the dispatchers and I know their job is harder than people know. Again, I will handle this and I apologize.

Keith,

Your driver drew the attention of our dispatch again. I was sent this attached audio from the dispatch supervisor. The call taker wrote "I had the owner the day before and he was absolutely pleasant. I can't believe he'd be ok with his drivers representing him this way." I won't be around until Monday, and we can talk then, but I wanted to get this to you so you could address it before it happens again.

REPORTING OFFICER: Ballweg #9167

INVESTIGATION:

On December 31st, 2025, at around 0605 hours, I, Officer Ballweg #9167, was working uniformed patrol for the City of Appleton Police Department. I wore a complete police uniform with all required gear, such as an APD police badge on my chest to identify me as a Police Officer and a department-issued Axon body-worn camera. I was operating my marked patrol squad #1015. I was dispatched to a reckless driver complaint in the area of Highway 441 and S Onelda St, Appleton. The complainant, Tyler Romenesko, was employed by Bob's Towing and driving to the scene of a motor assist when a vehicle (WI ASX2127) brake checked Tyler in the Bob's Towing vehicle. Tyler did not explain why the vehicle would have brake checked him, but it upset him due to the reckless behavior and because he was next to a semi-truck. He explained to me that he activated his high beams and his tow lights to get the vehicle to understand that he was a tow truck and was responding to an incident.

I was unable to make contact with the driver of (WI ASX2127). Tyler was also very displeased with the dispatchers, since they told him he was in Winnebago county.

SUMMARY: Officer Broadhurst #9181

On 10/26/2025 at 19:11 hours, I, Officer Broadhurst #9181, was performing uniformed patrol duties in marked squad 901. I was dispatched to a call for services of a reckless driver in the area of N. Bennett St./W. Parkway Blvd. With the dispatch notes stating as follows: "Bobs tow truck ran a stop sign, then tailgated the rp, passed them and then slammed on his brakes in front of them. They honked at him and Bobs tow truck circled back, starting tailgating the RP following them home and was using a siren on his truck". The aforementioned intersection is located in Appleton, Outagamie County, WI.

The complainant advised that he wanted to receive a phone call from an officer. The complainant was identified as, Gerald Christianson, upon viewing his Spillman DOT photograph yielded from a state query return. Gerald stated that while at the listed intersection he made a right turn to travel SB on Bennett St. where a Bob's Towing truck blew the stop sign on Bennett St., drove up behind him, and got within a close proximity to his vehicle's rear bumper. The tow truck then passed him to his driver's side and slammed on the brakes in front of them. Gerald then honked the horn at the truck and turned right again to travel WB on Hawes Ave. and parked at his residence on this street. The tow truck then turned around, somewhere on Brewster St., found Gerald in his driveway, parked in the street in front of his house, and began to blare a loud siren attached to the truck before driving away.

Gerald stated that he never saw who the driver was and that there were no words exchanged. I then ended my contact with Gerald over the phone. I later drove through the neighborhood and by the aforementioned intersection where I observed a yield sign on both sides of Parkway Blvd., where Gerald had turned from, and no stop signs on Bennett St., where the tow truck was said to have come from. There seems to be the possibility that Gerald had cut off the tow truck due to the truck having the right of way at this intersection. Axon BWC on.

END OF SUMMARY: Officer Broadhurst #9181

Supplemental Narrative

**10/28/2025 21:23:34 9181 NICKLAUS
BROADHURST**

SUPPLEMENT: Officer Broadhurst #9181

On 10/28/2025 at 21:18 hours, I, Officer Broadhurst #9181, was performing uniformed patrol duties in marked squad 901. I was able to make successful phone contact with the driver of Bob's Towing that was working at the time of this incident. The driver was verbally identified as Tyler Romenesko and later confirmed upon viewing his Spillman DOT photograph through a state query return. Tyler's information was also provided to me by Sgt. Ostermeier #9209.

I asked Tyler to advise me of what had happened between him and the other vehicle on the night of the 26th. Tyler stated that he pulled out of the shop parking lot and someone had pulled out onto Parkway Blvd. He went on to state that he stopped at a stop light at Parkway Blvd. and the other car turned SB onto Locust St. where he then followed behind them and observed them to be going about 10 mph maybe 15 mph. He went around them, the other car honked at them and then turned down a side street (presumably E. Hawes Ave.).

Tyler proceeded to go a block further, stopped at the stop sign, made two right hand turns to go around the block and observed the vehicle driving WB down the street. Tyler advised that he then turned around behind them, observed them to go about halfway down the block and turn into a driveway where he parked and turned on the horn that is equipped to the truck. He then drove away.

Tyler stated that he did not stop, turn on a siren, he just honked back at them. I attempted to gather a better intersection where this occurred since the two statements differ but he stated that he does not know all the roads over there. I then ended my contact. Axon BWC on.

CASE STATUS/DISPOSITION: Closed.

END OF SUPPLEMENT: Officer Broadhurst #9181

**Supplemental
Narrative**

**10/31/2025 13:44:18 9209 JOHN
OSTERMEIER**

On 10/30/25 I made a follow-up call to Gerard Christlanson. Gerard clarified several points. He said he saw the tow truck pulling out of a lot on Locust St. From my knowledge of this area, that would be the Bob's Towing business lot. Gerard said when the truck pulled out of the lot, Gerard was turning off Parkway onto Locust St. Gerard was in front of the truck and then looked back and the truck was close to his bumper. Gerard did not believe the truck stopped for its stop sign due to how fast it approached him.

The truck then passed Gerard. Gerard's wife was driving and she honked her horn. The truck got in front of them and then applied its brakes. Gerard turned off onto Hawes St. and went down about two blocks to his residence. During the two blocks the truck would have turned around and again got behind him, driving very close. When Gerard pulled into his driveway the truck slowed in front of his residence and blew what was described as an airhorn. Gerard was concerned over a potential confrontation. He told his wife to go into the house. The truck pulled away.

Bob's Towing is on the Appleton Next-Up Tow list. In checking records, it appeared the tow truck would have just left the lot after returning from an Appleton tow. The truck did not have the towed car on it at the time of this incident. Due to the connection with the next-up tow list, and the need for the tow companies to maintain professional standards, I contacted the owner, Keith Ristow. Keith was informed of the incident. It was ultimately determined that this incident would not apply to the next-up tow rotation ordinance since the tow truck was not actively engaged in an Appleton tow. The caller, Gerard, requested I relay his phone number to Keith, in case Keith wanted to talk to him. I emailed Gerard's first name and phone number to Keith, and Keith said he would call him.

END OF REPORT

CASE STATUS - RESOLVED
