Paula:

Here is the request for a driveway variance for the Mun. Serv. Comm. Can you please place it on the agenda?

Should I respond to his questions or would you like to respond?

Subject: Municipal Services Committee review 1313 Ritger

Kurt

I am requesting a Municipal Services Committee review of the intended driveway addition to 1313 S. Ritger, Appleton.

The existing driveway is 9' wide. The owner, Bob Mand would like to increase the width to the north by 12" (to the corner of the garage) and increase the width to the south by 9' (to the corner of the house) We will be adding to the city sidewalk and city apron. In order to do so, we will need to add 8' to the width of the curb cut out.

There is no room on the lot line side of the garage to add enough driveway to allow a second car to park and have access to the garage from the road.

Please respond to this e-mail asap to ensure you received it and to instruct us further as to what happens next. Are we required to be present at this committee meeting? If so, when is it exactly? Are we required to provide any more info than this e-mail? If so, what? When will we know the decision of the committee? Will they decide that night? If not, when?

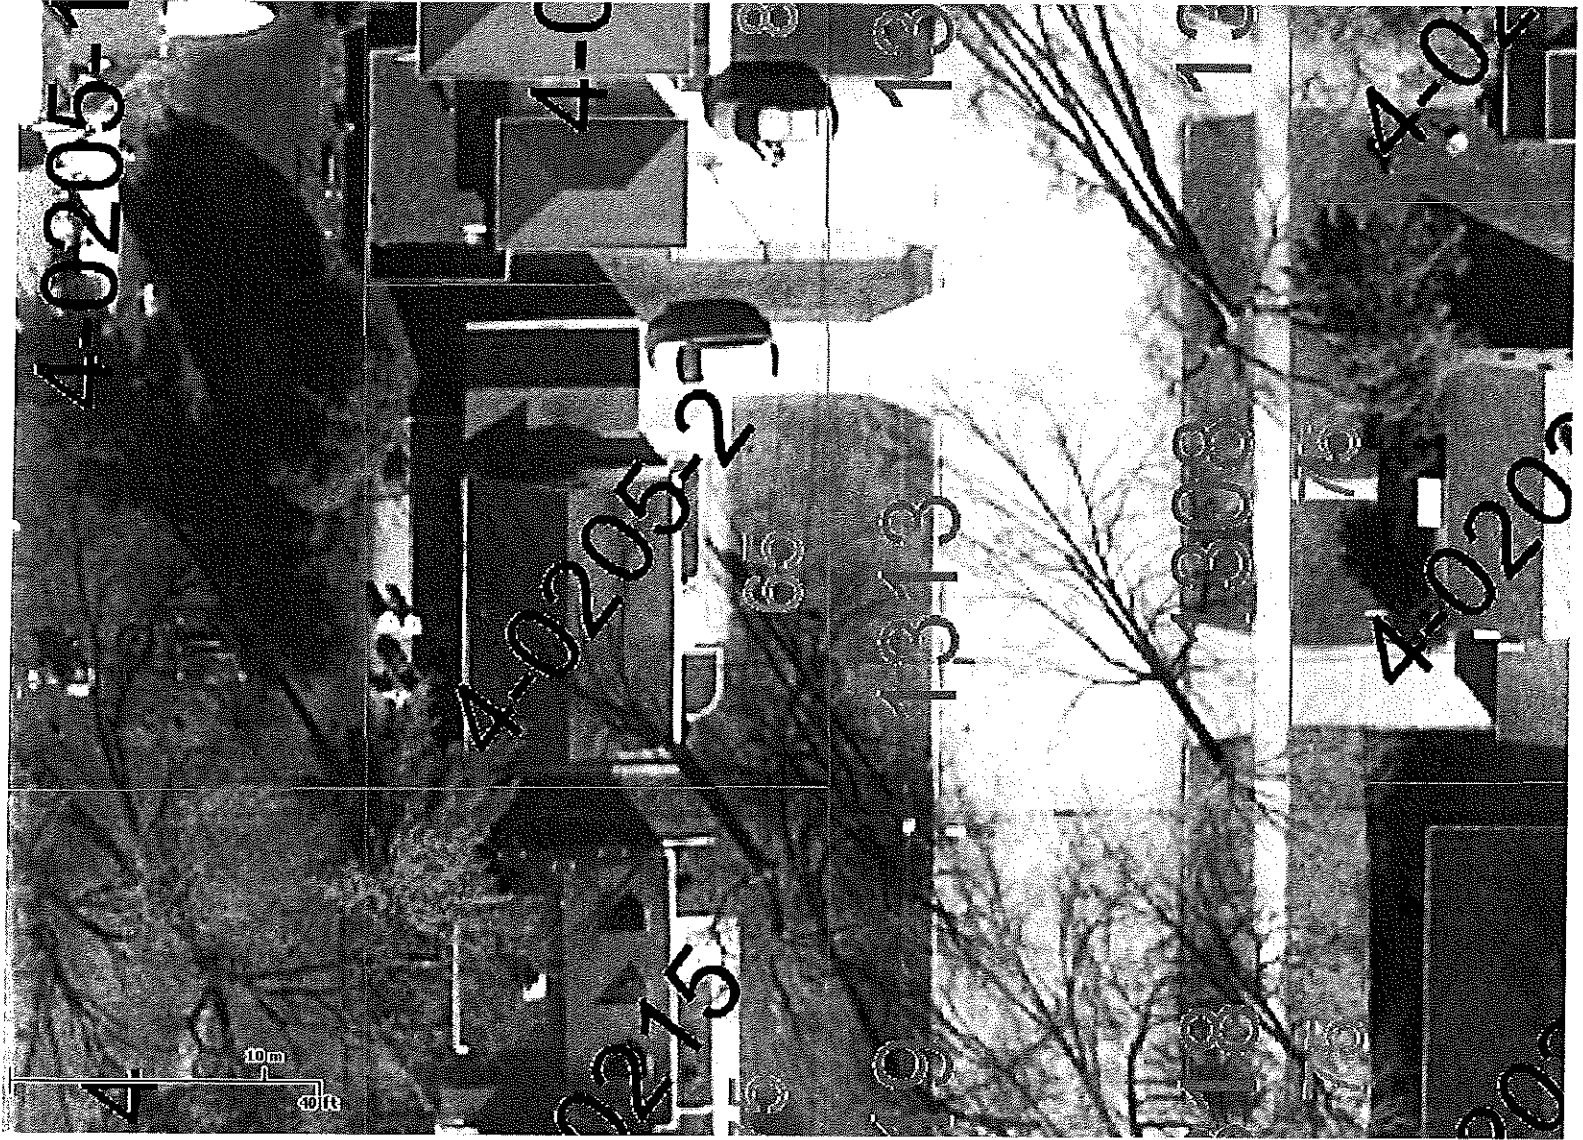

Thank You
